**Subject:** Oil Dispersant- /T/  
 I have been asked by Coast Guard public affairs if the agency is aware of a dispersant known as "OIL SPILL EATER," marketed by ABC International. The request for any information on this product has come down from National Incident Commander Admiral Allen.  
 Any information?

Unified Command Current  
Subject: Operat= ions -- Response to the Deepwater Horizon Oil Spill

### Current Operations

## May 8, 2010 Operations

The Unified Area Command continues to work closely together with the Responsible Party and Federal, State, local and tribal partners in anticipating requirements, identifying response options, and rapidly providing response support.

The following is a synopsis of our daily response efforts:

Total Vessels (including tugs and skimmers) =: 188  
 Boom deployed: 855,855 feet  
 Boom available: 831,553 feet  
 Oil and Water Mix - Recovered: Approximately 2.1 million gallons  
 Dispersant Used : 274,465 gallons  
 Dispersant available: 185,892 gallons  
 Remotely Operated Vehicles (ROV): 4  
 Overall Personnel Responding: 4,520

In addition to the overall personnel response, more than 2 500 volunteers have been trained to assist in the response effort

12 staging areas are in place and ready to protect sensitive shorelines. These areas include:

Biloxi, Miss.  
Pensacola, Fla.

Venice, La.  
Pascagoula, Miss.  
Grand Isle, La.  
Pass Christian, Miss.  
Panama City, Fla.  
Dauphin Island, Ala.  
Shell Beach, La.  
Siddell, La.  
Theodore, Ala.  
Orange Beach, Ala.

Weather conditions for May 8: Winds from the West at 10 knots in the morning, north 10-15 knots in the evening. 1-2 foot seas, light to moderate chop in protected waters.

To report oiled or injured wildlife, please call 1-866-557-1401.

To report spill related damage claims, please call 1-800-440-0858.

To report oil on land, or for general Community and Volunteer Information, please call 1-866-448-5816.

Of note is this tool released by Google a couple of days ago. It includes a nice interface to map the spill areas, with MODIS satellite images, and links to additional KML files.

---

Below is the website to obtain the BP Situation Exec Summary. No one else needs to have access to this page. You can only get to it by clicking on the url on this page unless Ken can figure out another way. BP sent this to me and gave me access so we are ok with using it. None of the other stuff on here is worth looking at but that is up to you.. I have found it much easier to keep the email and click on the url and enter the password.<= /font>

Subject: NRT Meeting Announcement and Agenda, Sunday May 9, 2010 @ 1100 EDT

\*\*\*\*\*DO NOT REPLY TO THIS EMAIL - THIS IS A POST MAILING ONLY\*\*\*\*\*  
Contact Mike Faulkner (I= aulkner.mike@epa.gov; 202-564-1978) with substantive questions and Michael Lengle (micha= al=5FLengle@sra.com; 703-284-6086) with logistical questions.

To: NRT Members and Alternat= es ONLY  
Sent on behalf of: USCG

From: CAPT A.S. Lloyd, NRT Vice Ch= air, NRT Chair for the BP Oil Spill Response - Gulf of Mexico Incident

Secretary Nagoltano and the National Inc= ident Commander (NIC) have requested a conference call with the NRT Member Agency Heads (Secretary Level) plus one member. This call is scheduled for 11:00 AM EDT on May 9, 2010 and should last no longer than 30 minutes. Regional Response Team IV and VI Co-Chairs may call in.

Please call in at 10:45 AM and note that roll call will begin at 10:50 AM. The call in telephone number is 1-800-320= 4430; PIN: 307212#. The agenda is attached for your convenience.

Action Item:

- As soon as possible, please p= rovide the name of Principal-level representative(s) who will be participating on the call to Shannon.T.Frobel@uscg.mil.
- NRT Members: Please ensure yo= ur Agency Principals are aware of the senior level interest in these BP Oil Spill Response - Gulf of Mexico Incident NRT meetings.

<= font size=3D2 face=3D'Arial'>Due to the technical nature of this conference bridge and potential to create interference during the call, NRT members are asked to call in via land line. Cell phones are extremely disruptive and may cause the call to drop. In addition, the nature of this telephone bridge is such that a tone will sound when participants enter or leave the conference. As such, it is requ= sted you not call into the bridge after 11:00 AM EDT, nor drop out of the confer= ence prior to its conclusion. In addition, unless actively participating, it is requested you keep your telephone on mute. Please do not place your telephone on hold during the conference.

**Re:** SOLIDIFIER PLAN -- DRAFT <= /table>

---

Steve  
I am in mobile, but heading to Biloxi. Once I am back I will look in Mobile later today. We need to contact Matt Weakley on this. I just don't have his email on the blackberry. He has the latest version at his finger tips.  
I think you know I have ben contact and given a review of the document. To summise if the solidifier is contained within a mess, fabric etc... Use as you would abe material.

Michael

Happy Saturday Everyone!

I spoke with Lee Tyner at OGC this a= fternoon. And one of the things she specifically asked about is whether Region 6 has any of the plans and guidelines mentioned in 40 CFR 300.310(c) (RCP, ACP, RRT and Area Committee guidelines, ACP guidelines). Do we have this?

**Subject:** Mathy Stanislaus Request

EOC OGC

We received a re= quest from Mathy Stanislaus today concerning On Scene Coordinators (OSCs) authori= ty under the National Contingency and Regional Contingency Plans (NCP/RCP) as it relates to the on going BCP Oil Spill Incident Response. His question is:

**Do the EPA OSC's have authority to direct disposal decisions under the NCP/RCP's? And if so, what role do they have in coordinating that decision with there state counterparts?**

We have a meeting with Mathy later this afternoon and he asked if we could get back to him with this then. I would appreciate any assistance on this. Than= ks, Mario

Subject: Deepwater Horizon REOC  
Situation Rep= ort #11

**Deepwater Horizon Incident, G= ulf of Mexico**  
**Region 6 REOC Update**

**Subject:** Region 6 Update # 11  
**Deepwater Horizon Incident, Gulf of Mexico**  
**Date:** &=nbsp;sp: May 8, 2010  
**To:** &=nbsp;sp: Incident Command  
**Thru:** &=nbsp;sp: Planning Section  
**From:** &=nbsp;sp: Situation Unit  
**Operational Period:** &=nbsp;sp: May 7, 2010 2401 – May 7, 2010 2400  
**Reporting Period:** &=nbsp;sp: May 7, 2010 2401 – May 8, 2010 1300

<b>1. Background</b> &=nbsp;sp:	
<b>Site Name:</b>	Deepwater Horizon Incident
<b>Mobilization Date:</b>	4/27/2010
<b>FPN#:</b>	N10036
<b>Start Date:</b>	4/28/2010

**2. Current Situation**

=B7  
o An estimated total of 77,000 barrels of oil released to date; estimated 5,000 barrels released during this operational period.  
o A total of 214,000 feet of boom deployed to date; 29,600 feet deployed during this operational period.

**2.1 (USCG) Incident Command Post (Houma, LA)**

=B7 Coordinated with USCG to received PRFA amendment for \$4 million dollars (\$5 million total), having been signed by the FOSC, RADM Mary Landry.  
=B7 Coordinated with OSHA on toxicity information in Corxit dispersants, and the accuracy of the MSDS of those products.  
=B7 Coordinated with NOAA to obtain updated operational maps to gather situational awareness= s.  
=B7 Submitted Request for Analysis for surface oil samples to BP Environmental Unit and coordinated timeframes of sampling and analysis with them.  
=B7 Reviewed and commented on BP Waste Management Plan. Coordinated with LDEQ and LDNR who agreed upon waste classification and disposal treatment option= s. The State of Louisiana amended their Emergency and Administrative Order to reflect the alignment with LDNR.  
=B7 Coordinated with Public Information Office at UC Houma on planned mobilization of EPA Vietnamese Community Liaison Officer.  
=B7 Coordinated ASPECT over flights of in situ burning.  
=B7 Unclassified underwater anomaly in vicinity of Timbalier Bay is still unclassified. SCAT recon reported no oiling on shoreline in Grand Isle area.

**2.2 (USCG) Area Command Post (Robert, LA)**

=B7 The Area Command Environmental Unit leadership met this morning to discuss overall strategies for monitoring subsurface dispersed oil plumes. Th= ey are preparing a plan that will support all identified EPA requirements while remaining flexible enough to accommodate the extremely fluid nature of the subsurface operational plans. Their plan will address an "= efficacy test" which has previously been identified as "Test 3", but will also include a strategy for transitioning into support of potential longer term applications. There has not been a specific proposal for subsea dispersant application at this

time.  
=B7 The research vessel Brooks / McCall is in the process of deploying to the injection site, with personnel and equipment that can support the subsea dispersant monitoring plan. The crew includes NOAA and EPA staff, and BP and EPA contractors. A communications plan for coordinating the activities and findings of the vessel is being developed at Area Command. The research vessel may be used to conduct analyses beyond the capabilities of SMART teams in support of the efficacy test.

### 2.3 Air Monitoring/Sampling

- =B7 EPA continues to conduct air monitoring and sampling in Venice operations area (VOCs and Particulates):
- o Venice, LA - 29.25274 N, 89.35750 W - V02;
  - o Boothville, LA - 29.31449 N, 89.38433 W - V03;
  - o Fort Jackson, LA - 29.35699 N, 89.45487 W - V05.
- =B7 EPA continues to conduct air monitoring and sampling in Chalmette operations area (VOCs and Particulates):
- o Chalmette, LA - 29.94562, -89.9721 - C01 - located at Fire Station number = 3, near corner of Jackson Street and Judge Perez; this location was discontinued and moved to C04 during the operational period.
  - o Poydras, LA - 29.86609, -89.89108 - C02 - located at Fire Station number = 8;
  - o Hopedale, LA - 29.82209, -89.60862 - C03 - located at the Emergency Operations Center.
  - o Chalmette, LA - 29.96082, -90.00132 - C04 - located at Fire Station on Aycock.

- =B7 Each air monitoring location has 4 pieces of air equipment:
- o DataRAM - monitoring particulate matter PM10 up to 5/8/10. EBAM (Particulate Monitors) equipment will replace DataRAM's throughout the 5/8/10 operational period.
  - o AreaRae - monitoring VOCs;
  - o PQ200 - samples for PM2.5 (on 5/6 PQ200 will be replaced with E-BAM air monitors) = ;
  - o SUMMA Canisters per location - sample for VOCs.
- =B7 All air monitoring/sampling stations are monitored throughout the day (24 hours) for immediate reporting of any elevated VOC or particulate levels. The maximum reading is reported to the OSC at Area Command Post in Venice and Chalmette.
- =B7 Real-time air monitoring data from midnight to midnight each day is reviewed for field QA and uploaded into SCRIBE by 1200 each day and available to EPA Headquarters.
- =B7 Venice and Chalmette operations reported that air monitoring data did not exceed action levels for VOCs or particulates (PM10) on 5/7. Chalmette did not conduct particulate (PM10) monitoring at station C02.
- =B7 EPA summary of air monitoring/sampling activities:

Air Monitoring &= Samples DataRAM (PM10) AreaRae SUMMA Canisters PM2.5 TOTALS FOR 5/6				
Venice	3 locs/24-hr	3 locs/24-hr	9	12
Chalmette	2 locs/24-hr	3 locs/24-hr	3	6
TOTAL TO DATE	6 locs/24-hr	6 locs/24-hr	104	42

\*QAQC samples not included in sample count

### 2.4 Water/Sediment Sampling

- =B7 EPA continues to conduct water and sediment sampling at locations provided by EPA Headquarters and selected through National Coastline Condition Assessment (NCCA) program. The NCCA sample locations are sampled every four years by state agencies with U.S. Coastlines. Sample parameters and locations were also selected in coordination with the EPA Region 6 Water Quality Division.
- =B7 Representatives from the Water Division and the REOC Environmental Units from R6 and R4 conduct a conference call three times a week with the HQ EOC to discuss the coordination and consistency of water and sediment sampling across the Deepwater Horizon Incident Response.
- =B7 On 5/7/10 Chalmette water operation team collected samples in Biloxi marsh (NE St. Bernard Parish). No oiled wildlife observations and no oil or odors were detected.
- =B7 On 5/7/10 Venice had no water operations
- =B7 EPA summary of water/sediment activities:

Water/Sediment Sample= es	Water	Sediment	TOTALS FOR 5/6
Venice	0	0	0
Chalmette	3	3	6

\*QAQC samples not included in sample count

### 2.5 TAGA

- =B7 TAGA 1553 continues to perform mobile monitoring for (BTEX) Southeastern LA - Slidell to Hopedale, to Delacroix to Poydras, to Boheman. No BTEX observed above low ppbv levels during any monitoring events - the concentrations observed were associated with vehicular traffic or isolated sources

### 2.6 ASPECT

- =B7 ASPECT conducted one flight on 7 May 2010 the primary objective of the mission was to collect data over any burning operations and collect data over dispersement operations. ASPECT was on station from 1130 to 1330 and no oil burning operations were observed during the time on station. Spectral and IR data was collected over the recovery area and due to excellent visibility (20 miles) 1000 ft aerial images were collected over the recovery area.
- =B7 On 5/8, ASPECT is scheduled to fly to position 29.01N, 90.21W to recon a potential mass of oil west of the delta and then transition to the oil recovery area to collect photo and spectral data. Next ASPECT will transition to Freemason Island to collect IR and photo data.

### 2.7 Water Quality Protection Division Update

- =B7 No update for this reporting period.
3. EPA Assets

### 3.1 Current Assets Deployed

- =B7 Activated in Dallas, TX
- o REOC is activated
  - o SRICT activated
  - o RRT activated

### Deployed Personnel

Craig was able to open the unzipped one I sent after that.

[illegible]

20 KW  
Generator

Will prepare for tomorrow. It is my understanding that no test injections of any type will take place until this plan is approved. Is that correct?
